

WARCO DOT 3 Brake Fluid

+1 (503) 783-0250 • www.warcopro.com

Product line: Warco DOT 3 Brake Fluid
Products: FC9116
Synonyms: Glycol-Based Brake Fluid
Recommended use: Disk and drum hydraulic brake fluid
Restrictions: Do not use where DOT5 is specified

FEATURES:

*Excellent Thermal / Chemical Stability
 Corrosion / Oxidation Resistance*

*Mixable with approved DOT 4 / DOT 5.1 Fluids
 Wet Boiling Point: 306°F*

CONFORMS TO FMVSS 116, SAE J1703

1. Physical and Chemical Properties

Appearance: Clear, pale yellow liquid
Odor: Mild, sweet odor
pH: 7 - 11
Melting Point: < -50°C / -58°F
Initial Boiling Pt: > 210°C / 410°F
Flash Point: 93°C / 199°F
Explosive Data: Vapors may form explosive mixtures with air
Vapor Pressure: 0.09 hPa (0.07 mmHg) @ 20° (68°F)
Vapor Density: > 5 (Air = 1)
Density: 1.05 mg/cu. cm @15.6°C
Solubility: Miscible in water, alcohol; sparingly soluble in some organic solvents
Viscosity: 1.8 mm/s² @ 100°C
